CHILD PROTECTION PROCEDURES

1. Children of the World Montessori School will carry out the procedures approved by the local Safeguarding Children Board by recognising that it is our legal duty under the Children's Act 1989 to report any signs of abuse and the local authority have a legal duty to protect the child. We also follow the guidelines set out in the 'What to do if you're worried a child is being abused'.

Children of the World Montessori School recognise the following as the procedure for a child abuse case:

- Practitioner has concern about child's welfare. Every concern must be written down, signed, dated and the time noted and passed to the Designated Person or Deputy DP to collate, the DP should reassure the practitioner that the concern will be followed up, they sign the confirmation slip.
- Discussion between the Designated persons. If the DP and Deputy DP think the concerns should be a referral and the child is not in immediate risk of serious harm then....(next point)
- Discussion with parent/s if necessary to get their view of events unless it is felt this will put the child at risk. Advice will be sort from Social Care (Single point of Access SPA). Discussions within the setting should initially be between the DP and DDP, however the practitioner should be kept informed of progress on a need to know basis.
- If the concern raised by the practitioner is serious (using the signs and indicators from the child protection training i.e. cigarette burn or the child discloses sexual assault) only then should the DP phone Social Care (Single point of Access SPA) without speaking to the parent(s) first.
- Referral to Social Care (Single point of Access), Duty and Assessment team. An initial phone call to social care (Single point of Access SPA) giving the family name and child's name, will result in either a Single point of Access being requested or just advice given. If a Single point of Access is submitted by the setting, social care will then start their assessment process.

2. All staff at Children of the World Montessori School will or have received appropriate child protection training through the Royal Borough of Windsor and Maidenhead about the identification of abuse.

Children of the World Montessori School staff will carry out the following procedures if any abuse is suspected:

- If a child's behaviour or appearance causes concern, stay calm, do not ignore.
- If a child wants to talk about something listen carefully.
- Tell the child they have done the right thing to tell the teacher.
- Explain that you can't keep a secret, you will be lying, as information will need to be related to the Designated persons.
- Record observations, detail records as soon as possible. If there are physical injuries note size, shape, colour and position on the body. Make a record of the time, day, date and any explanation. Sign and date observations. Observations are kept in the Observation Book. Each class has one.
- Observations are kept in the Observation book, there is one in each class. Report suspicion to Designated persons. Confidential discussion between all teachers to exchange information on observations. The DP and DDP may contact the Early Years team at RBWM for advice.

Children of the World Montessori School staff will not carry out the following procedures if any abuse is suspected:

- Ask leading questions
- Investigate or try to get to the truth of the story. This is a specialist job carried out by Social workers and Police.
- Make promises that can't be delivered.
- Criticise the abuser.

3. The designated members of staff responsible for contact with fellow teachers and Social Services in the reporting of a child abuse case will be Cheryl Clay and Alexis Hall who will liaise with parents, Social Services or Single point of Access in the local authority where the child lives. Cheryl Clay and Alexis Hall will have received the appropriate training regarding any signs of abuse of a child and the appropriate agencies to contact. Cheryl Clay or Alexis Hall will advise and support staff who have any concerns and keep detailed secure written records of concerns or referrals.

4. Children of the World Montessori School will ensure staff are kept up to date with current good practise within child protection by sending them on relevant courses throughout the academic year and by ensuring each member of staff has read the MASA policy and signed the declaration form.

5. Children of the World Montessori School will ensure all children and carers are protected through our recruitment procedure by ensuring all staff have a DBS (Disclosure Barring Service) check and request they enrol in the update service, we will only employ staff with appropriate qualifications, check referees for each member of staff, by working as a team and with regular staff meetings about the children's progress. All information regarding each member of staff i.e. curriculum vitae's, courses attended etc will be kept in a locked cupboard within the school.

6. Children of the World Montessori School staff will report concerns and suspicions to the person in charge, Directors and Designated persons. Confidential discussions between all teachers will take place to exchange information on observations.

Children of the World Montessori School staff will record these observations as quickly as possible by noting the injury in the observation book and if necessary complete a Concern report if suggested by the DP or DDP, if it is a physical injury they will note the size, shape, colour, position on the body or if it is an emotional injury i.e. if the child is underweight, hungry, dirty, smelly, poorly dressed, clothes too big or small etc. Staff will also make a record of the time, day, date and a clear name or signature must be made.

- lado@acheivingforchildren.org.uk
- We will make every effort to keep the details of every allegation confidential including guarding against publicity whilst an investigation is underway.
- We will provide support to staff that are the subject of an allegation.
- The Berkshire Child Protection and guidance (www.berks.proceduresonline.com chapter 31) applies whenever it is alleged that a person who works with children has, in any connection with her/his employment or voluntary activity:
 1. Behaved in a way that has harmed or may have harmed a child;
 2. Possibly committed a criminal offence against, or related to a child; or
 3. Behaved towards a child or children in a way that indicates she/he is unsuitable to work with children.
- The Child Protection procedures state that the Senior Manager should contact LADO within 24 hours to have an initial discussion to consider the nature, content and context of the allegation and agree a course of action. The police and social care are often consulted at this stage to consider whether the allegation meets the threshold for a child protection strategy meeting, and if so this will be convened within 2 days. It is important that internal investigations do not take place until after the discussion with the LADO.
